

CRYOSKIN 3.0 SLIMMING & TONING

**BEFORE AND AFTER
RESULTS**

WHAT IS CRYOSKIN?

Cryoskin is non-invasive technology which uses cooling technology to freeze and destroy fat cells and reduce fat instantly. It is pain-free and more effective than Botox. It is used to burn fat cells, boost collagen production, and improve the skin's appearance.

WHAT IS CRYOSKIN TONING & SLIMMING?

Cryoskin Slimming or Toning is a treatment that helps to naturally destroy fat cells. This treatment is especially great for anyone looking to lose fat in a desired area. This can treat areas such as your stomach, back, arms and thighs.

This session is the ideal choice for anyone looking to lose inches or deal with stubborn pockets of fat that do not improve with diet or exercise. This session is best used to address loose skin and cellulite.
